February 2024

Dear Shareholders, Friends of Needham, and Prospective Shareholders,

We are pleased to report Needham Funds' results for the year ending December 31, 2023. Our mission is to create wealth for long-term investors, and 2023 was a step forward.

### MARKET OVERVIEW/ MACRO OBSERVATIONS - JOHN BARR

In 2023, the market rebounded after one of its worst years in modern history. Entering 2023, markets expected three Federal Reserve rate hikes. There were only two, and the Fed target rate ended the year at 5.25-5.50%. At its December meeting, the Fed indicated there could be multiple rate cuts in 2024 and the markets rallied.

The economy continued to move forward with six consecutive quarters of GDP growth and 3-4% consumer price index inflation, after 5-7% the preceding four quarters.

In the second half, 10-year Treasury yields increased from 3.8% to 4.6%, the highest level since 2007. By year-end 10-year rates were back to 3.9%.

The biggest financial event of 2023 was the regional banking crisis. In March, Silicon Valley Bank (ex-SVB) and Signature Bank (ex-SBNY) failed and were seized by the FDIC. The classic failure of mismatched assets and liabilities brought down SVB. SVB was invested in 10-year Treasuries but was funded with overnight, uninsured deposits. With the Fed rate hikes, the Treasuries lost value, and corporate clients with deposits over the insured limit of \$250,000 rapidly withdrew funds, creating a bank run. The Federal Reserve, Treasury Department, and FDIC issued a joint statement insuring all deposits of SVB, and SVB reopened under new management after a long weekend. Pressure on the banking system stabilized, but deposits continued to move toward higher-yielding money market funds.

AI (artificial intelligence) took the world by storm in 2023 and had a significant positive impact on our Funds. ChatGPT's AI product was released in November 2022 and within five days, over one million users tried it. In the first quarter of 2023, the world became aware of AI's potential impact when Microsoft Corp. (MSFT) invested \$10 billion in OpenAI, the company behind ChatGPT. Microsoft plans to utilize ChatGPT as the engine behind Bing search and as a key part of its cloud, consumer, and corporate products. Alphabet, Inc. (GOOGL) and others followed with significant announcements about AI initiatives.

Stock market returns were dominated by the "Magnificent 7" mega-cap tech leaders. Two-thirds of the S&P 500's return came from Amazon.com, Inc. (AMZN), Apple, Inc. (AAPL), Meta Platforms, Inc. (META), Microsoft, Corp., NVIDIA Corp. (NVDA), and Tesla, Inc. (TSLA). 72% of the S&P 500 underperformed the index.<sup>1</sup>

Important to our investing universe, NVIDIA reported an epic year based on strong demand for its AI systems. Many of our portfolio investments benefit directly and indirectly from the adoption of AI. In March, we wrote *The Growth Factor Vol. 36*, "Artificial Intelligence and Needham Funds' Investments." On the international front, things went from bad to horrible. Ukraine entered the second year of Russia's war and terror campaign. In October, Hamas executed a horrific attack against civilians in Israel. Many of our portfolio companies have operations in Israel and all of their employees have been affected. Late in the year, Yemen's Houthi rebels launched missile attacks on commercial ships in the Gulf of Arabia, nominally in support of Hamas, and with the backing of Iran. The U.S. and UK navies responded, but the attacks and shipping disruptions continue. Finally, there are China's threats to Taiwan. These are unprecedented international developments in the post-Soviet world.

Our investment focus on the reshoring of U.S. manufacturing and infrastructure seems all the more relevant. The reshoring of U.S. manufacturing should create investment opportunities across technology, life sciences, chemicals, oil and gas, alternative energy, and other industrial sectors. *The Titanium Economy: How Industrial Technology Can Create a Better, Faster, Stronger America*, written by several McKinsey partners, describes how industrial technology companies are important to the United States' economic future.<sup>3</sup> Clean Harbors, Inc. (CLH), a holding of Needham Growth Fund and Needham Aggressive Growth Fund, is one of the companies featured in the book. We have long focused our investments on companies supplying technology for manufacturing and R&D, and we see even greater opportunities now.

In November 2023, Charlie Munger, Vice Chairman of Berkshire Hathaway, Inc. (BRK.A, BRK.B), passed away at age 99. I attended my first Berkshire Hathaway annual meeting in May 2017. The annual meeting is a wonderful weekend spent with old and new friends in Omaha. I love it and will return this May, but it won't be the same without Charlie on stage.

While there are many books about Warren Buffett, there are only a few about Charlie Munger. The most important is *Poor Charlie's Almanack – The Wit and Wisdom of Charles T. Munger*, edited by his good friend, Peter D. Kaufman. *Poor Charlie's* is based on Ben Franklin's *Poor Richard's Almanack*.

 $<sup>^2\</sup> https://www.needhamfunds.com/wp-content/uploads/2023/03/GF-36-Artificial-Intelligence-and-Needham-Funds-Investments.pdf$ 

 $<sup>^{3}\</sup> https://www.mckinsey.com/featured-insights/mckinsey-on-books/the-titanium-economy$ 

I highlight four words of wisdom from Charlie Munger.

- 1) Patience "The big money is not in the buying and the selling but in the waiting.4
- 2) Preparation More important than the will to win is the will to prepare.<sup>5</sup>
- 3) Analyze businesses Be a business analyst, not a market, macroeconomic or security analyst.<sup>6</sup> "Beta and modern portfolio theory and the like none of it makes any sense to me. We're trying to buy businesses with sustainable competitive advantages at a low, or even a fair, price."
- 4) Long-term investing "Understanding both the power of compound interest and the difficulty of getting it is the heart and soul of understanding a lot of things.<sup>7</sup>

In The Growth Factor Vol. 38, I honor the wit and wisdom of Charlie Munger. You will notice a big influence on my investment strategy as outlined in Growth Factor 36.

### NEEDHAM AGGRESSIVE GROWTH FUND – JOHN BARR, PORTFOLIO MANAGER

For the year ended December 31, 2023, the Fund's Institutional (NEAIX) and Retail classes (NEAGX) returned 38.37% and 37.65%, respectively, significantly outperforming the Russell 2000 Growth Index's 18.66%. With such a positive year, the top contributors gained much more than the top detractors lost. The Fund's 8 top contributors each returned more than the top detractor lost.

The Fund's top contributor for the second year in a row was Super Micro Computer, Inc. (SMCI). Super Micro is seeing strong growth for its Artificial Intelligence GPU (graphics processing unit) servers. It grew revenue by 37% in the fiscal year ended June 2023 and is expected to earn nearly \$20 per share in fiscal year 2024. As of December 31, 2023, Super Micro is valued at just 14x estimated earnings for the fiscal year ending June 30, 2024.

Vertiv Holding Co. (VRT) provides power management, cooling, control equipment, and thermal management for data centers. We believe Vertiv is well-positioned for the coming trend of liquid cooling of high-performance AI servers. David Cote, formerly CEO of Honeywell, is the Executive Chairman of Vertiv. The company was a spinout from Emerson Electric, purchased by Platinum Equity, and went public via SPAC in 2018.

The third leading contributor was ESI Group SA (ESI-FR). The Fund first purchased ESI in 2021 as we were impressed with new CEO Cristel de Rouvray's plans to increase margins and revenue growth. ESI supplies CAD (computer-aided design) software for the automotive, aerospace, and other heavy industries. It has particular expertise in virtual crash testing. In June, ESI announced a merger agreement with Keysight Technologies Inc. (KEYS).

The top detractor was long-time holding KVH Industries Inc. (KVHI). On its 2Q23 earnings call, KVH announced that the Board of Directors had concluded its review of strategic alternatives without changes. The market was expecting a merger or sale to take advantage of economies of scale. We believe KVH now needs to improve profitability and then again seek consolidation.

### **NEEDHAM AGGRESSIVE GROWTH FUND - 2023 PORTFOLIO CHANGES**

The Fund's most significant new positions are:

- FARO Technologies, Inc. (FARO) is a metrology company serving engineering, manufacturing, and public safety markets. FARO had overambitious growth plans for many years and spent accordingly. We believe that Chairman of the Board Yuvall Wasserman and new CEO Peter Lau understand FARO's markets and have good plans to create shareholder value. FARO is valued at 1.1x enterprise value to sales, with peers at 4x.
- Alteryx, Inc. (AYX) is a data analytics software company that we believe is undergoing a misunderstood transition to SaaS. We purchased Alteryx in 3Q23, only to have the company agree to an acquisition by private equity in 4Q23. We appreciate the short-term premium but had hoped that Alteryx would be a long-term holding.
- Carter's Inc. (CRI) is the leader in children's apparel. The stock and business have suffered due to the weak consumer cycle. We believe it is a durable, growing company with great management.

The most significant additions to existing positions in the portfolio were:

- Unisys Corporation (UIS), the new version of the old-line computer company. Unisys provides digital workplace solutions, cloud & infrastructure, and enterprise computing. We believe the profitability of its legacy operating system business alone is worth multiples of the current stock price.
- Aspen Aerogels, Inc. (ASPN) makes aerogel insulation used for energy infrastructure and pipelines. The insulation is also used to prevent lithiumion batteries from combusting. Aspen won contract awards from General Motors Company (GM), Toyota Motor Corp. (TM), Stellantis N.V. (STLS), Audi and other EV makers. On its May earnings call, Aspen announced plans to move all manufacturing for EV customers to its Rhode Island plant and to move manufacturing for other customers to a contract manufacturer in China. In December, Aspen raised \$75 million at \$12.38 per share, which fully funds the company through what we believe could be positive cash flow. We were pleased to increase our long-term holding of Aspen in that offering and throughout the year. Aspen closed the year at 4.23% of net assets.
- Vishay Precision Group (VPG), a specialty sensors and instruments company.

In 2023, the Fund exited several small positions primarily because we thought our thesis was off-track, or for tax purposes. The Fund also reduced its position in ESI Group SA after the announcement of its acquisition by KeySight.

 $<sup>^{\</sup>rm 4}$  Widely attributed to Charlie Munger. Accurate in spirit.

<sup>&</sup>lt;sup>5</sup> Kaufman, Peter. Poor Charlie's Almanack – The Wit and Wisdom of Charles T. Munger, p. 74

<sup>&</sup>lt;sup>6</sup> Kaufman. Poor Charlie's Almanack – The Wit and Wisdom of Charles T. Munger, p. 75

<sup>&</sup>lt;sup>7</sup> Kaufman. Poor Charlie's Almanack - The Wit and Wisdom of Charles T. Munger, p. 74

#### NEEDHAM GROWTH FUND - JOHN BARR AND CHRIS RETZLER. CO-PORTFOLIO MANAGERS

For the year ended December 31, 2023, the Fund's Institutional (NEEIX) and Retail classes (NEEGX) returned 27.30% and 26.85%, respectively, outperforming the S&P MidCap 400's 16.44%, the S&P 500's 26.29% and the Russell 2000's 16.93%.

Super Micro Computer, Inc. (SMCI) was the Fund's leading contributor again in 2023.

Entegris, Inc. (ENTG) was the second leading contributor in 2023. Entegris supplies filters and chemicals used in advanced semiconductor manufacturing processes. We believe semiconductors will continue to increase as a percentage of industrial output, and that Entegris' filtration and specialty materials products will grow faster than the semiconductor industry. The stock suffered through the semiconductor downturn of 2023 and concern over the leverage used to purchase CMC Materials in 2022. Entegris stock appreciated as the market anticipated the end of the downturn.

Nova, Ltd. (NVMI) makes equipment used to measure parameters throughout the semiconductor manufacturing process. We believe Nova gained market share in 2023 based on new optical, materials, and chemical metrology products, despite the semiconductor downturn.

KVH Industries was the leading detractor.

The Fund's largest new positions in 2023 were Unisys and Carter's. The Fund's largest additions to existing positions were Marvel (MRVL) and Alteryx.

The Fund's largest exit was American Tower Corporation (AMT). The Fund reduced positions in some of the longer-term, larger holdings, including PDF Solutions Inc. (PDFS), Thermo Fisher Scientific Inc. (TMO), Super Micro Computer, and Photronics Inc. (PLAB.)

Morningstar categorizes the Fund as Mid-Cap Growth. Lipper categorizes it as Multi-Cap Core. Our mission is to find companies that may be compounders over many years.

#### NEEDHAM SMALL CAP GROWTH FUND - CHRIS RETZLER, PORTFOLIO MANAGER

For the year ended December 31, 2023, the Fund's Institutional (NESIX) and Retail classes (NESGX) returned 5.85% and 5.68%, respectively, underperforming the Russell 2000 Growth Index's 16.93%.

In 2023, the Fund benefitted from its concentrated investments in Aspen Aerogels, Inc., Sumo Logic, Inc. (formerly SUMO), nLight, Inc. (LASR), Standard BioTools, Inc. (LAB), and Zuora, Inc. (ZUO). The Fund's top detractors in 2023 were ViewRay, Inc. (VRAYQ), Cambium Networks Corp. (CMBM), ADTRAN Holdings (ADTN), AXT, Inc. (AXTI), and Telos Corporation (TLS).

Throughout the second half of the year, the Fund increased its investment in Aspen Aerogels, Inc. (ASPN), a long-time portfolio holding. The company manufactures aerogel-based insulation and benefits from the increased opportunity in EV battery technology and the increase in electric vehicles. We are excited about the future of its aerogel insulation within the electric vehicle industry and its accelerating customer demand, which we expect to continue for many years.

nLight, Inc. (LASR) is a fiber laser and direct energy laser manufacturer. It continues to shift sales away from China and build its market share globally. It is also developing its directed energy business that will be used for defense purposes. We expect accelerated sales from nLight over the next few years.

In December 2023, the Fund's portfolio holding Alteryx (AYX) announced its acquisition by Clearlake Capital Group and Insight Partners. This is a perfect example of a management team that was improving operations but realized that it was more prudent to consolidate based on competitive circumstances. We hope for more transactions like this one in 2024.

The market volatility and small-cap multiple compression we experienced in the first half of 2023 began to abate in the last couple of months of the year. The interest rate yield curve remains steeply inverted as the Federal Reserve fights inflation and slows economic activity. Inflation is proving difficult to tame due to a variety of reasons, including supply constraints, component shortages, government regulations, energy supplies, food production costs, and transportation and logistics complications. We expect inflation to continue declining in 2024.

As an asset class, small-cap growth stocks experienced continued volatility throughout 2023. Wage pressures, logistics and transportation complications, higher commodity prices, and supply chain constraints continued to hamper earnings and forward guidance for many companies. These trends hurt smaller companies that lack the buying power and operational flexibility of larger companies. Overall, continued supply chain dislocations and bloated inventory levels negatively impacted 2023 global growth. However, high inflation levels were reduced throughout the year.

Widespread semiconductor shortages had negative implications for many end markets, including automotive, medical, industrial, and defense. However, supply chains have been recalibrated and disruptions have improved somewhat. We expect semiconductors and semiconductor capital equipment companies to continue their strong, long-term trends.

In August 2022, Congress passed the CHIPS and Science Act, which includes substantial funding and tax credits for domestic semiconductor production. Funding will help accelerate semiconductor development within the U.S., which has lagged over the past decade, and will have enormous geopolitical benefits. The funding has been slow to trickle out so far, but we expect the pace to accelerate in 2024. We continue to like the semiconductor capital equipment industry, including portfolio holdings MKS Instruments, Inc. (MKSI), FormFactor, Inc. (FORM), and Veeco Instruments, Inc. (VECO). We like semiconductor manufacturers that are exposed to AI, automotive, industrial, and wireless infrastructure.

We believe technology remains a great area for long-term investment, and there are secular trends firmly in place to support the technology sector's continued growth. Areas of long-term investment that we like are mobile electrification, communications infrastructure, artificial intelligence, cloud computing, wireless connectivity, software and security, and specialty material manufacturing. We also see opportunities in military modernization.

https://www.regions.com/-/media/pdfs/AssetManagement-The-Semiconductor-Cycle.pdf?revision=1da76437-de80-4ebd-96f3-dc8ab8257328&la=en&hash=414BE463A90E72789127F9AB4D334AAA

After a challenging 2022, we were optimistic that the markets would stabilize in 2023, and they did until March when the regional bank failures caused a significant sell-off in small-cap stocks. The asset class slowly improved throughout the second quarter. Wage pressures, logistics and transportation complications, higher commodity prices, and supply chain constraints continued to hamper earnings and forward guidance for many companies. These trends hurt smaller companies that lack the buying power and operational flexibility of larger companies.

As we enter 2024, we expect volatility to remain elevated as investors digest data from a slowing economy. However, we believe a lot of the damage to the small-cap equity markets was done in 2022 and 2023. Improved global growth and accelerating revenue prospects in the second half of 2024 should provide companies with leverage and drive improved earnings and cash flow. We expect the multi-year selloff and relative underperformance of small-cap stocks to provide long-term investors with opportunities to buy high-quality growth stocks at reasonable prices. We will continue our strategy of investing in small-cap growth companies with good management teams, strong balance sheets, and the ability to generate cash flow and profits.

#### **CLOSING**

We believe the U.S. remains the best place in the world to invest, and we continue to see an opportunity to invest in small and mid-cap stocks. Most importantly, we see a revolution happening in technology that continues to create investment opportunities. We believe the reshoring of manufacturing in the U.S. will create investment opportunities. We see opportunity in our strategy of investing in companies that we know well and that we believe are positioned with secular growth drivers.

We welcome our new investors and thank all of our investors for their continued support. If you have any questions, thoughts, or concerns, please contact us at (800) 625-7071 or jbarr@needhamco.com and cretzler@needhamco.com. The information presented in this commentary is not intended as personalized investment advice and does not constitute a recommendation to buy or sell a particular security or other investments. Past performance is no guarantee of future results. The views of Needham Investment Management L.L.C., the Funds' investment adviser (the "Adviser"), and the securities described in this report are as of December 31, 2023; these views and portfolio holdings may have changed subsequent to this date. The specific securities discussed may, in aggregate, represent only a small percentage of a Fund's holdings. If a specific security discussed is not found in a Fund's Schedule of Investments, it may have been held by the Fund during the period. It should not be assumed that securities identified and discussed were, or will be, profitable, or that the investment decisions made in the future will be profitable, or equal the investment performance of the securities discussed herein. There can be no guarantee as to the accuracy of any outlooks for markets, sectors and securities as discussed herein.

This message is not an offer of the Needham Growth Fund, the Needham Aggressive Growth Fund or the Needham Small Cap Growth Fund. Shares are sold only through the currently effective prospectus. Please read the prospectus or summary prospectus carefully and consider the investment objectives, risks and charges and expenses of the Funds carefully before you invest. The prospectus and summary prospectus contain this and other information about the Funds and can be obtained on our website, www.needhamfunds.com or by contacting the Funds' transfer agent U.S. Bancorp Fund Services LLC doing business as U.S. Bank Global Fund Services ("Fund Services") at 1-800-625-7071.

Investment returns and principal value will fluctuate, and when redeemed, shares may be worth more or less than their original cost. Performance data quoted represents past performance, and does not guarantee future results. Current performance may be higher or lower than these results. Performance current to the most recent month-end may be obtained by calling our transfer agent at 1-800-625-7071. Total return figures include reinvestment of all dividends and capital gains.

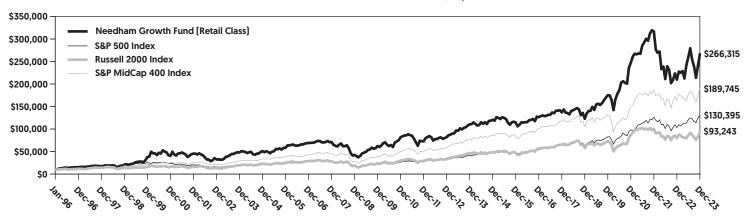

All three of the Needham Funds have substantial exposure to small and micro capitalized companies. Funds holding smaller capitalized companies are subject to greater price fluctuation than those of larger companies. The coronavirus disease 2019 (COVID-19) global pandemic and the aggressive responses taken by many governments or voluntarily imposed by private parties, including closing borders, restricting travel and imposing prolonged quarantines or similar restrictions, as well as the closure of, or operational changes to, many retail and other businesses, have had negative impacts, and in many cases severe negative impacts, on markets worldwide. It is not known how long such impacts, or any future impacts of other significant events described above, will or would last, but there could be a prolonged period of global economic slowdown, which may impact your Fund investment. Needham & Company, LLC, member FINRA/SIPC, is the distributor of The Needham Funds, Inc.

The Russell 2000 Index is a broad unmanaged index composed of the smallest 2,000 companies in the Russell 3000 Index. The Russell 3000 Index is a market-capitalization-weighted equity index that provides exposure to the entire U.S. stock market. The Russell 3000 Index tracks the performance of the 3,000 largest U.S.-traded stocks. The Russell 2000 Growth Index measures the performance of the small cap growth segment of the U.S. equity universe. It includes those Russell 2000 companies with relatively higher price-to-value ratios and higher forecasted growth values. Please see the disclaimer regarding these indexes under "Supplementary Information—Index Disclaimer" on page 43 of this report.

#### Needham Funds

Each Fund's performance figures are for the period ended December 31, 2023. The performance data quoted is historical. Past performance is no guarantee of future results. Current performance may be higher or lower than the performance data quoted. The principal value and investment return of an investment will fluctuate so that your shares, when redeemed, may be worth more or less than their original cost. To obtain performance information current to the most recent month-end, please visit www.needhamfunds.com or call 1-800-625-7071. The returns shown above are net of expenses. The returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemptions of Fund shares. In the absence of fee waivers and expense reimbursements, when they are necessary to keep the Fund's total annual operating expenses at the expense cap currently in effect, total return would be reduced. Performance figures for periods greater than one year are annualized. For information about each index shown above, please see the notes below. The Global Industry Classification Standard (GICS\*) was developed by and/or is the exclusive property of MSCI, Inc. and Standard & Poor Financial Services LLC ("S&P"). GICS is a service mark of MSCI and S&P and has been licensed for use by U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services ("Fund Services").

- (1) Investment results calculated after reinvestment of dividends.
- (2) The inception date of the Retail Class of each Fund was as follows: Needham Growth Fund 1/1/96; Needham Aggressive Growth Fund 9/4/01; and Needham Small Cap Growth Fund 5/22/02.
- (3) The inception date of the Institutional Class of each Fund was 12/30/16.
- (4) It is not possible to invest directly in an index. The performance of the index does not include the deduction of expenses associated with a mutual fund, such as investment management fees.
- (5) The S&P 500 Index focuses on the large-cap sector of the market; however, since it includes a significant portion of the total value of the market, it also is considered representative of the market. Companies in the S&P 500 are considered leading companies in leading industries.
- (6) The S&P MidCap 400 Index provides investors with a benchmark for mid-sized companies. The index seeks to remain an accurate measure of mid-sized companies, reflecting the risk and return characteristics of the broader mid-cap universe on an on-going basis.
- (7) The Russell 2000 Index measures the performance of the small-cap segment of the U.S. equity universe. The Russell 2000 Index is a subset of the Russell 3000 Index representing approximately 8% of the total market capitalization of that index. The Russell 2000 Index includes approximately 2,000 of the smallest securities based on a combination of their market cap and current index membership.
- (8) The Russell 2000 Growth Index is constructed to provide a comprehensive and unbiased barometer for the small-cap growth segment. The index is completely reconstituted annually to ensure new and growing equities are included and that the represented companies continue to reflect growth characteristics.
- (9) The return shown for the index is from the inception date of the Retail Class. The returns for the S&P 500 Index, S&P MidCap 400 Index, Russell 2000 Growth Index, and the Russell 2000 Index from the inception date of the Institutional Class are 13.41%, 9.37%, 8.07%, and 7.33%, respectively.
- (10) These categories represent broad market sectors. Refer to the Schedule of Investments for a more detailed categorization by industry.
- (11) Percentage of total investments includes all stocks, plus cash.
- (12) Net exposure represents the difference between the long exposure and the short exposure, which produces the net investment exposure.
- (13) The returns reflect the actual performance for each period and do not include the impact of any adjustments made for financial reporting required by Generally Accepted Accounting Principles (GAAP).
- \* Current portfolio holdings may not be indicative of future portfolio holdings.

### **Disclosure of Fund Expenses (Unaudited)**

The following expense table is shown so that you can understand the impact of fees on your investment. All mutual funds have operating expenses. As a shareholder of a Portfolio, you incur transactional costs and ongoing costs, which include costs for portfolio management, administrative services, and shareholder reports, among others. A Portfolio's expenses are expressed as a percentage of its average net assets. This figure is known as the expense ratio. The following examples are intended to help you understand the ongoing costs (in dollars) of investing in each Portfolio and to compare these costs with those of other mutual funds. The examples are based on an investment of \$1,000 made at the beginning of a six-month period and held for the entire period. The expense example table below illustrates your fund's cost in two ways:

- Actual Expenses. This section helps you to estimate the actual expenses after fee waivers that you paid over the period. The "Ending Account Value" shown is derived from the Portfolio's actual return, and "Expenses Paid During Period" shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Portfolio. You may use the information here, together with the amount you invested, to estimate the expenses that you paid over the period. To do so, simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number given for your Portfolio under the heading entitled "Expenses Paid During Period".
- Hypothetical Expenses on a 5% Return. This section is intended to help you compare your Portfolio's costs with those of other mutual funds. It assumes that the Portfolio had a return of 5% before expenses during the period shown, but that the expense ratio is unchanged. In this case, because the return used is not the Portfolio's actual return, the results do not apply to your investment. The example is useful in making comparisons because the Securities and Exchange Commission requires all mutual funds to calculate expenses based on a 5% return. You can assess your Portfolio's cost by comparing this hypothetical example with the hypothetical examples that appear in shareholders reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

### For the Period July 1, 2023 to December 31, 2023 (Unaudited)

Expense Example Table

	Beginning Account Value 7/1/23	Ending Account Value 12/31/23	<i>Expenses Paid During Period*</i> 7/1/23 – 12/31/23	Expense Ratio During Period* 7/1/23 – 12/31/23

### **Notes to Financial Statements**

December 31, 2023

### 1. Organization

Needham Growth Fund ("NGF"), Needham Aggressive Growth Fund ("NAGF") and Needham Small Cap Growth Fund ("NSCGF") (each, a "Portfolio" and collectively, the "Portfolios"), are portfolios of The Needham Funds, Inc. (the "Company"), which is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Portfolios are "diversified" for purposes of the 1940 Act. Please refer to the most recently filed Registration Statement and Statement of Additional Information for a detailed description of each Portfolio's investment strategy. The Company was organized as a Maryland corporation on October 12, 1995. NGF, NAGF, and NSCGF each currently offer two classes, the Retail Class and the Institutional Class. The Institutional Class of each Portfolio commenced operations on December 30, 2016.

Each Portfolio is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 "Financial Services – Investment Companies."

### 2. Class Specific Expenses

Class level expenses are allocated daily to each class of shares based upon the ratio of net assets represented by each class as a percentage of the net assets of the Portfolio. Expenses deemed directly attributable to a class of shares are recorded by the specific class. Most Portfolio expenses are allocated by class based on relative net assets. Distribution Fees incurred in connection with the Company's Amended and Restated Plan of Distribution Pursuant to Rule 12b-1 are expensed at 0.25% of average daily net assets of the Retail Class shares, and the specific amounts are detailed in Note 5.

### 3. Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Company in the preparation of its financial statements. These policies are in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Security Valuation: Portfolio securities for which market quotations are readily available are stated at the last reported sale price reported by the principal exchange for the security as of the exchange's close of business. Securities for which no sale has taken place during the day and securities which are not listed on an exchange are valued at the mean of the highest closing bid and lowest asked prices. Exchange traded options are valued at the last reported sale price on any exchange on which the option is principally traded. If no sales are reported on a particular day, the options will be valued at the mean between the highest closing bid and lowest asked prices across the exchanges where the option is traded. Non-exchange traded options will also be valued at the mean between the last bid and asked quotations. For options where market quotations are not readily available, value will be determined in accordance with the fair value procedures described below. All other securities and assets for which (a) market quotations are not readily available, such as in the case of a market or technical disruption that prevents the normal trading of a security held by a Portfolio, (b) market quotations are believed to be unrepresentative of fair market value, such as in the case of a thinly traded security, or (c) valuation is normally made at the last sale price on a foreign exchange and a significant event occurs after the close of that exchange but before the New York Stock Exchange closes, are valued at their fair value as determined in good faith by the Company's Valuation Designee in accordance with Fair Value Procedures. The Company's Fair Value Procedures are implemented and monitored by a Fair Value Committee (the "Committee") established by the Valuation Designee. The Company's Board of Directors (the "Board") has designated the Portfolios' investment adviser as the Company's Valuation Designee.

When a security is valued in accordance with the Fair Value Procedures, the Committee determines a value after taking into consideration any relevant information that is reasonably available to the Committee. Some of the more common reasons that may necessitate that a security be valued pursuant to these Fair Value Procedures include, but are not limited to: the security's trading has been halted or suspended; the security has been delisted from a national exchange; the security's primary trading market is temporarily closed at a time when under normal conditions it would be open; or the security's primary pricing source is not able or willing to provide a price. The securities of each Portfolio may also be valued on the basis of valuations provided by a pricing service approved by, or on behalf of, the Board.

Portfolio securities listed or traded on securities exchanges, including American Depositary Receipts ("ADRs"), are valued at the closing price on the exchange or system where the security is principally traded or at the NASDAQ Official Closing Price. If there have been no sales for that day on the exchange or system, a security is valued at the mean of the highest closing bid and lowest asked prices on the exchange or system where the security is principally traded. The Portfolios value their investments in money market funds based on their daily net asset values.

Investment Transactions: Changes in holdings of portfolio securities for the Portfolios shall be reflected no later than in the first calculation on the first business day following the trade date for purposes of calculating each Portfolio's daily net asset value per share. However, for financial reporting purposes, portfolio security transactions are reported on the trade date of the last business day of the reporting period. The cost (proceeds) of investments sold (sold short) is determined on a specific identification basis for the purpose of determining gains or losses on sales and buys to cover short positions. Dividend income, distributions to shareholders and dividend expense from securities sold short are recorded on the ex-dividend date. Interest income and interest expense from securities sold short is recorded on an accrual basis.

### **Notes to Financial Statements (Continued)**

December 31, 2023

Foreign Currency: Foreign currency amounts are translated into U.S. dollars as follows: (i) assets and liabilities at the rate of exchange at the end of the respective period; and (ii) purchases and sales of securities and income and expenses at the rate of exchange prevailing on the dates of such transactions. The portion of realized/unrealized gains (losses) arising from changes in the exchange rates are included with the net realized/unrealized gain (loss) from affiliated and unaffiliated securities, securities sold short and foreign currency translations. Principal risks associated with such transactions include the movement in value of the foreign currency relative to the U.S. dollar and the ability of the counterparty to perform.

The Portfolios may also invest in forward currency contracts. Fluctuations in the value of such forward currency transactions are recorded daily as unrealized gain or loss; realized gain or loss includes net gain or loss on transactions that have terminated by settlement. These instruments involve securities and currency market risk, credit risk, or both kinds of risks, in excess of the amount recognized in the statements of assets and liabilities. Risks also arise from the possible inability of counterparties to meet the terms of their contracts. The Portfolios did not enter into forward currency contracts during the year ended December 31, 2023.

*Allocation of Expenses:* Expenses directly attributable to a Portfolio are charged directly to that Portfolio, while expenses which are attributable to more than one Portfolio are allocated among the respective Portfolios based upon relative net assets or some other reasonable method.

*Use of Estimates:* The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period.

Actual results could differ from those estimates.

*Distributions to Shareholders*: Dividends from net investment income, if any, are declared and paid annually for the Portfolios. Distributable net realized gains, if any, are declared and distributed at least annually.

Federal Income Taxes: It is the policy of each Portfolio to continue to qualify as a regulated investment company, as defined in the Internal Revenue Code, by complying with the provisions available to certain investment companies and to make distributions of net investment income and net realized capital gains sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for income taxes has been made in the Portfolios' financial statements.

As of December 31, 2023, the Portfolios did not have any tax positions that did not meet the "more-likely-than-not" threshold of being sustained by the applicable tax authority. Open tax years are those that are open for exam by Federal and state taxing authorities. As of December 31, 2023, open Federal and New York tax years include the tax years ended December 31, 2020 through December 31, 2023. The Portfolios have no tax examinations in progress.

Fair Value Measurements: Valuation inputs used to determine the value of the Portfolios' investments are summarized in the three broad levels listed below:

- Level 1 Unadjusted quoted prices in active markets for identical assets and liabilities that the Portfolios have the ability to access.
- Level 2 Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument in an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Portfolios' own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The inputs or methodology used to value securities are not necessarily an indication of the risk associated with investing in those securities.

Portfolio securities listed or traded on securities exchanges, including ADRs, are valued at the closing price on the exchange or system where the security is principally traded or at the NASDAQ Official Closing Price. If there have been no sales for that day on the exchange or system, a security is valued at the mean of the highest closing bid and lowest asked prices on the exchange or system where the security is principally traded. These valuations are typically categorized as Level 1 in the fair value hierarchy.

Fair value pricing may be used if events materially affecting the value of foreign securities occur between the times the exchange on which they are traded closes and the time the Portfolios' net asset values are calculated. These valuations are categorized as Level 2 in the fair value hierarchy.

December 31, 2023

The following is a summary categorization, as of December 31, 2023, of each Portfolio's investments based on the level of inputs utilized in determining the value of such investments:

#### **Needham Growth Fund**

Assets <sup>(1)</sup>	Level 1	Level 2	Level 3	Total

<sup>(1)</sup> Please refer to the Schedule of Investments to view segregation by industry.

#### 4. Investment Advisory and Administrative Services

The Company has engaged Needham Investment Management L.L.C. (the "Adviser") to manage its investments pursuant to an Investment Advisory Agreement. The Company pays the Adviser an investment advisory fee at the annual rate of 1.25% of the average daily net assets of each Portfolio.

The Adviser has entered into an agreement with the Company (the "Expense Limitation Agreement") whereby the Adviser has contractually agreed to waive its investment advisory fee for, and to reimburse expenses of, the Institutional Class and Retail Class shares of each Portfolio in an amount that limits annual operating expenses to not more than 1.40% and 1.95% for NGF, 1.18% and 1.85% for NAGF, and 1.18% and 1.85% for NSCGF, of the average daily net assets of the Portfolio's Institutional Class and Retail Class, respectively (excluding taxes, interest, brokerage, dividends on short positions, acquired fund fees and expenses and extraordinary items, but including the investment advisory fee stated in the Investment Advisory Agreement). The Expense Limitation Agreement is effective for the period from April 27, 2023 through May 1, 2024. The Expense Limitation Agreement shall continue in effect from year to year thereafter only upon mutual agreement of the Company and the Adviser. Similar agreements were in effect for periods prior to April 27, 2023.

Any reimbursements or fee waivers made by the Adviser in respect of a Portfolio are subject to recoupment by the Adviser, to the extent that the Portfolio is able to make the repayment within the expense limitation established in the Expense Limitation Agreement. Under the Expense Limitation Agreement, the Adviser has a right to receive from each Portfolio class reimbursement for fee waivers and/or expense reimbursements made pursuant to the Agreement for a period of up to 36 months from the time of any waiver or reimbursement. The table below contains the amounts of fee waivers and expense reimbursements subject to recapture by the Adviser through December 31 of the period indicated:

	2026	2025	2024	Total
NGF (Retail Class)	\$ —	\$ —	\$ —	\$ —
NGF (Institutional Class)	63,757	144,749	76,378	284,884
NAGF (Retail Class)	18,377	34,001	_	52,378
NAGF (Institutional Class)	467,987	307,532	163,479	938,998
NSCGF (Retail Class)	35,362	46,525	_	81,887
NSCGF (Institutional Class)	455,161	597,068	584,256	1,636,485

The Company and Fund Services (the "Administrator") are parties to a Fund Administration Servicing Agreement. The Administrator provides administrative and fund accounting services pursuant to this agreement and, in consideration of these services, receives a fee computed daily and paid monthly at an annual rate based on a percentage of the value of each Portfolio's assets. The Administrator is

<sup>(2)</sup> Please refer to the Schedule of Investments and Schedule of Securities Sold Short to view segregation by industry.

December 31, 2023

also compensated for any out of pocket expenses that are reasonably incurred in carrying out its duties under this agreement. The Administrator also provides transfer agent services pursuant to a Transfer Agent Servicing Agreement for additional fees.

Certain officers of the Company are also officers of the Adviser and/or Needham & Company, LLC (the "Distributor"), an affiliate of the Adviser. Such officers receive no fees from the Company for serving as officers of the Company. Each of the three Directors who is not an "interested person" (as defined in the 1940 Act) of the Company (each, an "Independent Director") receives a quarterly retainer of \$3,750 and a per-meeting fee of \$1,000. Each Independent Director is also a member of the Audit Committee of the Board and receives a fee of \$1,000 per meeting attended. An affiliate of the Adviser provides an employee to serve as Chief Compliance Officer for the Company and to provide certain related services. The affiliate pays the Chief Compliance Officer's compensation for acting as such and the Company reimburses the affiliate for the Company's allocated portion of the expense.

### 5. Distribution Plan and Brokerage Commissions

The Company has adopted an Amended and Restated Plan of Distribution pursuant to Rule 12b-1 under the 1940 Act. Under the Plan, each Portfolio may pay compensation to the Distributor or any other distributor or financial institution with which the Company has an agreement with respect to the Retail Class of each Portfolio, with the amount of such compensation not to exceed an annual rate of 0.25% of the daily average net assets of each Portfolio's Retail Class shares. During the year ended December 31, 2023, NGF, NAGF, and NSCGF Retail Class shares incurred \$170,485, \$215,519, and \$132,572, respectively, pursuant to the Plan.

During the year ended December 31, 2023, NGF, NAGF and NSCGF incurred and paid brokerage commissions to the Distributor in the amount of \$17,584, \$109,653, and \$142,144, respectively.

## 6. Temporary Borrowings

Each Portfolio may borrow from banks up to 25% of its total assets and may pledge its assets in connection with these borrowings, provided that no additional investments shall be made while borrowings exceed 5% of total assets.

The Portfolios did not engage in any temporary borrowings during the year ended December 31, 2023.

#### 7. Short Sale Transactions

During the year ended December 31, 2023, NGF, NAGF, and NSCGF sold securities short. Upon selling a security short, the Portfolios record an asset for the settlement amount as "Deposit with Broker for Securities Sold Short" and a corresponding liability, which is marked-to- market to reflect current value. The broker for the Portfolios' short sale transactions requires maintenance by each Portfolio of a minimum amount of collateral at all times, regardless of whether any short sales are outstanding. To the extent necessary to meet the broker's collateral requirements for open short positions, additional securities will be segregated above the minimum to cover the short positions. At December 31, 2023, the market value of securities separately segregated to cover short positions was \$2,989,625, \$1,420,750, and \$1,350,000 for NGF, NAGF and NSCGF, respectively.

Additionally, the Portfolios had receivables for Deposit with Broker for Securities Sold Short of \$284,712, \$-, and \$- pledged as collateral with a broker in connection with any open short positions for NGF, NAGF, and NSCGF, respectively as of December 31, 2023. NGF held securities sold short as of December 31, 2023. NAGF and NSCGF did not hold any securities sold short as of December 31, 2023.

#### 8. Investment Transactions

The following summarizes the aggregate amount of the cost of purchases and proceeds from sales of investment securities and securities sold short, excluding short-term securities, during the year ended December 31, 2023:

	Purchases	Sales
NGF		
Long Transactions	\$ 11,875,381	\$ 13,619,274
Short Sale Transactions	1,794,342	1,651,644
NAGF		
Long Transactions	130,827,286	12,631,379
Short Sale Transactions	210,389	197,466
NSCGF		
Long Transactions	166,117,384	176,431,327
Short Sale Transactions	6,900,519	6,625,136

#### 9. Financial Instruments With Off-Balance Sheet Risk

In the normal course of their business, the Portfolios may engage in transactions with off-balance sheet risk, including securities sold short, written options, futures, and forward currency contracts. Transactions in certain financial instruments represent future commitments to purchase or sell other financial instruments at specific terms at specified future dates. Each of these financial

December 31, 2023

instruments contains varying degrees of off-balance sheet risk whereby changes in the market values of the securities underlying the financial instruments may be in excess of the amounts recognized in the financial statements.

Securities sold short represent obligations of the Portfolios to make future delivery of specific securities and, correspondingly, create an obligation to purchase the securities at market prices prevailing at a later delivery date (or to deliver the securities if already owned by the Portfolios). As a result, short sales create the risk that the Portfolios' ultimate obligation to satisfy the delivery requirements may exceed the amount of the proceeds initially received on the liability recorded in the financial statements.

#### 10. Indemnification

Under the Company's organizational documents, the Company's Directors and Officers are indemnified against certain liabilities arising out of the performance of their duties to the Company. In addition, in the ordinary course of business, the Company enters into contracts that contain a variety of indemnifications. The Company's maximum exposure under these arrangements is unknown.

However, the Company has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

#### 11. Transactions with Affiliates

NAGF owned 5% or more of the voting securities of the following companies during the year ended December 31, 2023. As a result, each of these companies is deemed to be an "affiliated person" (as defined in the 1940 Act) of NAGF (and the other Portfolios). Transactions during the year in affiliated companies were as follows:

	37-1			Net Change	Net		¥7-14	Share
Security Name	Value at January 1, 2023	Value of Purchases	Value of Sales	in Unrealized Appreciation (Depreciation)	Realized Gains (Losses)	Dividend Income	Value at December 31, 2023	Balance December 31, 2023
Adams Resources								
& Energy, Inc.	\$3,522,260	\$1,838,844	\$ (12,580)	\$(1,754,929)	\$ (6,935)	\$109,200	\$3,586,660	137,000
Educational								
Development Corp.	1,264,000	363,392	_	(977,792)	_	_	649,600	560,000
GSE Systems, Inc.	1,080,000		(214,923)	577,460	(1,288,787)		153,750	75,000
	\$5,866,260	\$2,202,236	\$(227,503)	\$(2,155,261)	\$(1,295,722)	\$109,200	\$4,390,010*	

The value of these securities agrees to the Investments in Affiliated Securities, at Value in the Statements of Assets and Liabilities.

NSCGF owned 5% or more of the voting securities of the following company during the year ended December 31, 2023. As a result, this company is deemed to be an "affiliated person" (as defined in the 1940 Act) of NSCGF (and the other Portfolios). Transactions during the year in this affiliated company were as follows:

				Net Change	Net			Share
	Value at			in Unrealized	Realized		Value at	Balance
	January 1,	Value of	Value of	Appreciation	Gains	<b>Return of</b>	December 31,	December 31,
Security Name	2023	Purchases	Sales	(Depreciation)	(Losses)	Capital	2023	2023
Frequency								
Electronics, Inc.	\$ 4,018,500	\$ —	\$ (1,903,296)	\$ 2,237,176	\$(251,005)	\$(570,000)	\$3,531,375	322,500
Intevac	10,407,319	196,498	(8,270,648)	(1,459,279)	(247,490)		626,400	145,000
	\$14,425,819	\$196,498	\$(10,173,944)	\$ 777,897	\$(498,495)	\$(570,000)	\$4,157,775*	

<sup>\*</sup> The value of these securities agrees to the Investments in Affiliated Securities, at Value in the Statements of Assets and Liabilities.

## 12. Federal Income Taxes

No provision for federal income taxes is required since the Company intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code and distribute substantially all of its taxable income and capital gains to shareholders. Because income tax regulations differ from GAAP, the timing and character of income and capital gain distributions determined in accordance with tax regulations can differ from income and capital gains recognized for financial reporting purposes. Accordingly, the character of distributions and the composition of net assets for tax purposes can differ from those reflected in the financial statements. These book/tax differences may be temporary or permanent in nature. Temporary differences are generally due to differing book and tax treatment for the timing of the recognition of gains and losses on securities, including post-October losses (as described below). Permanent differences are generally due to differing treatment of net investment losses and distributions paid in

December 31, 2023

connection with redemptions. To the extent these differences are permanent, they are charged or credited to paid-in capital or distributable earnings, as appropriate, in the period in which the differences arise. These reclassifications have no effect on net assets or net asset value per share of each Portfolio. For the year ended December 31, 2023, the following table shows the reclassifications made:

	Distributable Earnings/	Paid In
	(Accumulated Deficit)	Capital
NGF	<del>-</del>	\$ 56,700,592
NAGF	_	305,794,498
NSCGF	_	238,764,962

As of December 31, 2023, the cost, gross unrealized appreciation, gross unrealized depreciation, and the net unrealized appreciation (depreciation) on securities, including proceeds from securities sold short for federal income tax purposes, were as follows:

		Gross	Gross	Net Unrealized
		Unrealized	Unrealized	Appreciation
	Cost	Appreciation	Depreciation	(Depreciation)
NGF	\$ 56,333,702	\$ 96,494,207	\$ (5,610,168)	\$90,884,039
NAGF	301,408,226	116,197,338	(20,873,311)	95,324,027
NSCGF	163,480,980	26,569,338	(22,455,240)	4,114,098

The difference between the tax cost of investments and the cost of investments for GAAP purposes is primarily due to the tax treatment for wash sale losses and as it relates to NAGF Passive Foreign Investment Company income.

As of December 31, 2023, the components of distributable earnings (loss) on a tax basis were as follows:

	NGF	NAGF	NSCGF
Undistributed ordinary income	\$ —	\$ —	\$ —
Undistributed long-term capital gains	_	_	_
Other accumulated appreciation (depreciation)	(200,753)	(3,034,083)	(76,581,647)
Unrealized appreciation (depreciation)	90,884,039	95,324,027	4,114,098
Total accumulated earnings (loss)	\$90,683,286	\$ 92,289,944	\$ (72,467,549)

As of December 31, 2023, the Funds had accumulated capital loss carryovers of:

	Capital Loss	<b>Capital Loss</b>		
	Carryover ST	Carryover LT	Expires	
NGF	\$ (191,869)	\$ (8,844)	Indefinite	
NAGF	\$ (526,527)	\$ (2,504,901)	Indefinite	
NSCGF	\$ (18,157,043)	\$(58,424,604)	Indefinite	

Under current tax law, capital and currency losses realized after October 31 of a Portfolio's fiscal year may be deferred and treated as occurring on the first business day of the following fiscal year for tax purposes. For the year ended December 31, 2023, the Portfolios had no such losses to defer.

#### 13. Subsequent Events

Management has evaluated subsequent events through the date the financial statements were issued. This evaluation did not result in any subsequent events that necessitated recognition or disclosures.

## Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of The Needham Funds, Inc.

## **Opinion on the Financial Statements**

We have audited the accompanying statements of assets and liabilities of Needham Growth Fund, Needham Aggressive Growth Fund and Needham Small Cap Growth Fund, each a "Portfolio" of The Needham Funds, Inc. (collectively, the Portfolios), including the schedules of investments, as of December 31, 2023, the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the related notes to the financial statements (collectively, the financial statements), and the financial highlights for each of the three years in the period then ended. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Portfolios as of December 31, 2023, the results of their operations for the year then ended, the changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the three years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

The financial highlights for the years ended December 31, 2020 and December 31, 2019, for the Portfolios were audited by other auditors. Those auditors expressed an unqualified opinion on those financial highlights in their report dated February 26, 2021.

### **Basis for Opinion**

These financial statements are the responsibility of the Portfolios' management. Our responsibility is to express an opinion on the Portfolios' financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Portfolios in accordance with U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Portfolios are not required to have, nor were we engaged to perform, an audit of their internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Portfolios' internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2023, by correspondence with the custodians and brokers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

RSM US LLP

RSM US LLP

We have served as the auditor for The Needham Funds, Inc. since 2021.

Boston, Massachusetts February 28, 2024

# **Information about Directors and Officers (Unaudited)**

December 31, 2023

Information pertaining to the Directors and Officers of the Company is set forth below.

The Portfolios' Statement of Additional Information (SAI) includes additional information about the Directors and is available without charge, upon request, by calling 800-625-7071.

The address of each individual is 250 Park Avenue, New York, NY 10177. Each Director serves until the next annual shareholders meeting or until his successor is elected and qualified.

Name, Year of Birth and Position with the Company	Term of Office and Length of Term Served by Director/Officer	Portfolios in the Fund Complex Overseen by Director/Officer	Principal Occupations(s)  During Past 5 Years  and Other Directorships  Held by Director/Officer
_ ,		Independer	
John W. Larson, Year of Birth: 1935 Director <sup>†</sup>	From 2006 to 2023	Three	Currently retired. Partner at the law firm of Morgan, Lewis & Bockius LLP from 2003 until retiring in December 2009. Partner at the law firm of Brobeck, Phleger & Harrison LLP from 1969 until 2003. From July 1971 to September 1973 worked in government service as Assistant Secretary of the United States Department of the Interior and Counselor to George P. Schultz, Chairman of the Cost of Living Council. Director of Wage Works, Inc. (an employee benefits company) from 2000 until 2018. Director of Sangamo BioSciences, Inc. since 1996.
F. Randall Smith, Year of Birth: 1938 Director	Indefinite; Since 1996	Three	Founder, Member of Investment Committee, Investment Analyst and Portfolio Manager of Capital Counsel LLC (a registered investment adviser) since September 1999; President from 1999 to 2014. NSCGF	0.00%		
For corporate shareholders, the percent of ordinary income distributions qualifying for the corporate dividends received deduction for			

For corporate shareholders, the percent of ordinary income distributions qualifying for the corporate dividends received deduction for the fiscal year ended December 31, 2023 was as follows:

NGF	0.00%	
NAGF	0.00%	
NSCGF	0.00%	

The percentage of taxable ordinary income distributions that are designed as short-term capital gain distributions under Internal Revenue Section 871 (k)(2)(C) for each Fund were as follows:

NGF	0.00%
NAGF	0.00%
NSCGF	0.00%

## **Privacy Policy**

It is the policy of the Company to keep personally identifiable financial information about you as an individual ("nonpublic personal information") confidential, and use or disclose it only as necessary to provide services to you or the Company or as otherwise required or permitted by law. We may collect the following nonpublic personal information about you:

- Information we receive from you on or in applications or other forms, correspondence, or conversations, including, but not limited to, your name, address, phone number, social security number, assets, income and date of birth; and
- Information about your transactions with us, our affiliates, or others, including, but not limited to, your account number and balance, payments history, parties to transactions, cost basis information, other financial information and information about how you vote your shares.

We disclose nonpublic personal information about current and former shareholders to companies that provide necessary services to the Company. These companies include the transfer agent, distributor, administrator and investment adviser as well as other affiliates of the Company. We maintain physical, electronic and procedural safeguards that comply with federal standards to guard your nonpublic personal information and restrict access to this information to those persons who need it to provide services to you or the Company or who are otherwise permitted by law to receive it. In the event that you hold any shares of our funds through a financial intermediary, including, but not limited to, a broker-dealer, bank, or trust company, the privacy policy of your financial intermediary governs how your nonpublic personal information is shared with nonaffiliated third parties. If you have any questions concerning the Company's Privacy Policy, please call 1-800-625-7071.

## **Disclosure of Portfolio Holdings**

Each Portfolio files its complete schedule of portfolio holdings with the Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. For the Portfolios, this would be for the fiscal quarters ending March 31 and September 30. Each Portfolio's Form N-PORT reports are available without charge, upon request, by calling 800-625-7071 or on the SEC's website at http://www.sec.gov.

# **Voting Proxies on Company Portfolio Securities**

A description of the policies and procedures that the Company uses to determine how to vote proxies relating to portfolio securities and information regarding how the Company voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 are available without charge, upon request, by calling 800-625-7071 or on the SEC's website at http://www.sec.gov.

#### **Household Delivery of Shareholder Documents**

To reduce expenses, the Company may mail only one copy of the Portfolios' prospectuses, proxy statements, information statements, and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call the Portfolios at 1-800-625-7071 or contact your financial institution. You will begin receiving individual copies thirty days after receiving your request.

#### **Index Disclaimer**

The Portfolios have been developed solely by the Adviser. The Portfolios are not in any way connected to or sponsored, endorsed, sold or promoted by the London Stock Exchange Group plc and its group undertakings (collectively, the "LSE Group"). FTSE Russell is a trading name of certain of the LSE Group companies.

All rights in the Russell 2000 Index and the Russell 3000 Index (together, the "Indexes") vest in the relevant LSE Group company which owns the Index. "Russell®" is a trade mark of the relevant LSE Group company and is used by any other LSE Group company under license. The Indexes are calculated by or on behalf of FTSE International Limited or its affiliate, agent or partner. The LSE Group does not accept any liability whatsoever to any person arising out of (a) the use of, reliance on or any error in the Indexes or (b) investment in or operation of the Portfolios. The LSE Group makes no claim, prediction, warranty or representation either as to the results to be obtained from the Portfolios or the suitability of the Indexes for the purpose to which it is being put by the Adviser.

The source of the data for each of the Indexes is the LSE Group. © LSE Group 2021. All rights in the Indexes or data vest in the relevant LSE Group company which owns the Index or the data. Neither LSE Group nor its licensors accept any liability for any errors or omissions in the Indexes or data and no party may rely on any Indexes or data contained in this communication. No further distribution of data from the LSE Group is permitted without the relevant LSE Group company's express written consent. The LSE Group does not promote, sponsor or endorse the content of this communication.

## **Board Consideration and Approval of Investment Advisory Agreement**

On October 26, 2023, at a meeting called for the purpose of voting on such approval, the Board, including all of the Independent Directors, approved the continuance of the Investment Advisory Agreement (the "Advisory Agreement") between the Company and the Adviser with respect to NGF, NAGF and NSCGF. The Independent Directors were assisted in their review by independent legal counsel and met with counsel in executive session separate from representatives of the Adviser. In considering the renewal of the Advisory Agreement, the Board considered several factors that it believed to be relevant, including those discussed below. Prior to voting, the Independent Directors received a memorandum from independent legal counsel discussing the legal standards for their consideration of the proposed continuation of the Advisory Agreement. The Board did not identify any one factor as dispositive, and each Director may have attributed different weights to the factors considered.

The Board considered information provided to it at the meeting and in previous presentations from representatives of the Adviser regarding the nature, extent, and quality of the services provided to the Portfolios. The Board also considered research support available to, and portfolio management capabilities of, the portfolio management personnel (specifically with respect to investments in securities sold short); and that the Adviser also provides oversight of day-to-day fund operations and assistance in meeting legal and regulatory requirements. The Board also noted that on a regular basis it received and reviewed information from the Adviser regarding the compliance policies and procedures established pursuant to Rule 38a-1 under the 1940 Act. The Board also considered the risks associated with the Portfolios borne by the Adviser and its affiliates (such as entrepreneurial, operational, reputational, litigation and regulatory risk). The Board also considered portfolio management's brokerage policies and practices (including policies and practices regarding soft dollars) and the standards applied in seeking best execution.

The Board received and considered performance information for each Portfolio, as well as for a group of peer funds with similar investment objectives and policies and the Portfolio's unmanaged indices, for various periods ended September 30, 2023. The Board considered the Portfolios' performance in light of overall financial market conditions. The Board discussed with representatives of the Adviser the results of the comparisons and considered that: (i) NGF's total return performance for Retail shares and Institutional shares was above the peer group average performance for the one-, three-, five- and ten-year (Institutional shares only) periods and since inception, and was above the Russell 2000 Index and S&P MidCap 400 Index for the one-, five- and ten-year periods and since inception, and below each Index for the three-year period (the Retail shares performance was slightly below the performance of the S&P MidCap 400 Index for the ten-year period); (ii) NAGF's total return performance for Retail shares and Institutional shares was above the peer group average performance for all periods, and was above the Russell 2000 Index and S&P 500 Index for all periods; and (iii) NSCGF's total return performance for Retail shares and Institutional shares was below the peer group average performance for the one- and three-year periods and was above the peer group average performance for the five- and ten-year periods and since inception (Institutional shares only), and was below the Russell 2000 Index and S&P 500 Index for the one- and three-year periods and was above the Russell 2000 Index for the five- and ten-year periods and since inception and was above the S&P 500 Index for the five-year period (the Retail shares performance was slightly below the performance of the S&P 500 Index for the five-year period) and since inception. The Board discussed with representatives of the Adviser the reasons for NSCGF's underperformance versus the during the recent periods under review and noted that the portfolio manager was experienced with a good long term performance record.

The Board concluded that, overall, the nature, extent and quality of services provided (and expected to be provided), including performance, under the Advisory Agreement were sufficient for renewal of the Agreement.

# **Supplementary Information (Unaudited) (Continued)**

December 31, 2023

The Board also reviewed and considered the contractual investment advisory fee payable by each Portfolio and information comparing the investment advisory fee and the each Portfolio's total actual expenses with those of peer funds.

In addition to reviewing each Portfolio's performance and the profitability analysis of the Adviser, the Directors considered possible economies of scale, but did not believe material economies of scale to be present in light of the Portfolios' asset size. The Board also reviewed information regarding fees charged by the Adviser to private investment funds with fee structures that include performance fees. The Board considered the fee comparisons in light of the differences in management of these different types of accounts, and the differences in the degree of entrepreneurial and other risks borne by the Adviser in managing the Portfolios and in managing other types of accounts. Taking all of the above into consideration, as well as the factors identified below, the Board determined that the advisory fee charged each Portfolio was reasonable in light of the nature, extent and quality of the services provided to the Portfolio under the Advisory Agreement.

The Board received and considered an analysis of the profitability of the Adviser and its affiliates in providing services to the Portfolios. The Board also considered the expense limitation arrangement and its effect on the profitability of the Adviser and its affiliates. The profitability of the Adviser and its affiliates was considered by the Board not excessive in light of the nature, extent and quality of the services provided to the Portfolios.

The Board discussed information concerning whether the Adviser realizes economies of scale with respect to the management of the Portfolios as the Portfolios' assets grow and whether fee levels reflect these economies of scale for the benefit of shareholders. The Board determined that the economies of scale which may accrue to the Adviser and its affiliates in connection with the management of the Portfolios had been adequately considered by the Adviser in connection with the fee rate charged pursuant to the Advisory Agreement and that, to the extent in the future it were determined that material economies of scale had not been shared with shareholders, the Board would seek to have those economies of scale shared with the Portfolio's shareholders.

The Board also considered potential benefits to the Adviser from acting as investment adviser and took into consideration the soft dollar arrangements in effect for trading the Portfolios' investments. In light of the costs of providing investment management and other services to the Portfolios and the ongoing commitment of the Adviser to the Portfolios, the Board considered that the ancillary benefits that the Adviser and its affiliates received were reasonable.

The Independent Directors confirmed that they had received adequate information to make a reasonable determination with respect to the approval of the Advisory Agreement. After considering all relevant factors and information, the Board, exercising its business judgment, determined that the continuation of the Advisory Agreement was in the best interests of the Portfolios and their shareholders and approved the continuation of the Advisory Agreement for another year.

#### Statement Regarding Liquidity Risk Management Program

The Company has adopted a liquidity risk management program (the "LRMP") pursuant to the requirements of Rule 22e-4 under the 1940 Act, which requires registered open-end funds (other than money market funds) to adopt and implement a written liquidity risk management program that is reasonably designed to assess and manage fund liquidity risk. The rule is designed to promote effective liquidity risk management throughout the open-end fund industry, thereby reducing liquidity risk—i.e., the risk that a fund could not meet requests to redeem shares issued by the fund without significant dilution of remaining investors' interests in the fund.

Pursuant to the requirements of Rule 22e-4, the LRMP is required to include policies and procedures reasonably designed to incorporate the following elements, and the LRMP complies with these requirements: (1) assessment, management and periodic review of liquidity risk; (2) classification of each Portfolio's investments into one of the four liquidity categories in Rule 22e-4; (3) if the Portfolio does not primarily hold assets that are considered highly liquid investments (cash and other investments reasonably expected to be convertible into cash in current market conditions in three business days or less without the conversion into cash significantly changing the market value of the investment), determination of a "highly liquid investment minimum" (as defined in Rule 22e-4, the "HLIM") and compliance with additional related requirements; (4) prohibition on the acquisition of any "illiquid investment" (as defined in Rule 22e-4) if immediately after the acquisition the Portfolio would have invested more than 15% of its net assets in illiquid investments; and (5) if the Portfolios reserve the right to engage in redemptions in-kind, establishment of policies and procedures regarding how and when the Portfolios will engage in such redemptions in-kind. There have been no material changes to the LRMP since it was initially approved by the Board.

The Board has approved the Adviser to administer the LRMP (the "Program Administrator"). As Program Administrator, the Adviser delegates the day-to-day activities required by the LRMP to a Liquidity Committee comprised of various Company officers and others within the Adviser (the "Liquidity Committee"), and the Liquidity Committee seeks assistance from and works together with Fund Services in effectuating the requirements of the LRMP as necessary.

# **Supplementary Information (Unaudited) (Continued)**

December 31, 2023

Pursuant to the requirements of Rule 22e-4, the Board must review, no less frequently than annually, a written report prepared by the Program Administrator that addresses the operation of the program and assesses its adequacy and effectiveness of implementation, including, if applicable, the operation of the HLIM, and any material changes to the program. The Board received a written report in October 2023 (the "Annual Report").

The Annual Report states that the Adviser, as the Program Administrator, acting primarily through the Liquidity Committee, has assessed the operation of the LRMP and believes that the LRMP is reasonably designed to assess and manage the Portfolios' liquidity risk and is adequate and effective in its implementation. The Program Administrator and the Liquidity Committee initially determined that each Portfolio primarily holds assets that are highly liquid investments, and the Annual Report states that this determination continues to be maintained so that no Portfolio needs to maintain a HLIM. In addition, the Annual Report states that, since the LRMP was implemented, no Portfolio has breached its limit on illiquid investments.
